

|                           |  |                       |  |
|---------------------------|--|-----------------------|--|
| <b>Description</b>        | In-line pressure regulator with factory-set non-adjustable outlet pressure, reducing from e.g. 15 bar to 5 bar. The regulator is suited for basic pressure control only with an outlet pressure tolerance of approx. ± 10%*. Non-relieving function, therefore not recommended for applications such as nailers. |                       |  |
| <b>Benefits</b>           | <ul style="list-style-type: none"> <li>• Higher safety through lower pressure. Tools and equipment protected against pressure damages</li> <li>• Cost reduction through substantially reduced air consumption</li> <li>• Noise reducing for tools</li> </ul>   |                       |  |
| <b>Media</b>              | compressed air, non-corrosive gases  |                       |  |
| <b>Supply pressure</b>    | max. 18 bar  |                       |  |
| <b>Adjustment</b>         | Select the pressure regulator according to the desired outlet pressure. The outlet pressure cannot be subsequently adjusted. This safeguards against tampering.  |                       |  |
| <b>Relieving function</b> | non-relieving  |                       |  |
| <b>Temperature range</b>  | 0 °C to 60 °C / 32 °F to 140 °F  |                       |  |
| <b>Material</b>           | Body: zinc   | Diaphragm: NBR/Buna-N |  |
|                           | Seat: PP, Santoprene   | O-ring: NBR/Buna-N    |  |
